CYBINT BOOTCAMP: FAQ

THE CYBERSECURITY BOOTCAMP AT LCC INTERNATIONAL UNIVERSITY POWERED BY CYBINT IS AN ACCELERATED CYBERSECURITY TRAINING PROGRAM DESIGNED TO SUCCESSFULLY PREPARE PEOPLE WITH LITTLE OR NO BACKGROUND IN IT FOR ENTRY-LEVEL JOBS IN CYBERSECURITY, A HIGHLY IN-DEMAND AND LUCRATIVE CAREER PATH. THE BOOTCAMP CAN BE DELIVERED REMOTELY OR IN A BLENDED FORMAT, COMBINING IN PERSON AND SELF-PACED LEARNING.

01

Application and Admissions

HOW CAN I APPLY FOR THE BOOTCAMP?
Fill out application online before August 15, 2021:

_____ *Click here* →

WILL CANDIDATES HAVE TO TAKE A PRE-ASSESSMENT OR QUIZ TO BE ACCEPTED?
Yes! There will be a self-paced pre-assessment test done online as well as a scheduled online interview.

ARE THERE ANY PREREQUISITES FOR THE BOOTCAMP?
You will need English reading proficiency, basic math and logic skills, and most of all, drive and motivation to learn in an accelerated environment. After admission, students are expected to complete the self-paced Prework module (~20 hours) before the start of the Bootcamp, whose objective is to bring everyone to the same level of technical expertise.

I HAVE NO PRIOR BACKGROUND IN CYBERSECURITY, BUT I AM PASSIONATE ABOUT IT. CAN I PARTICIPATE IN THE CYBERSECURITY BOOTCAMP?
Yes! The Bootcamp requires no prior cybersecurity knowledge or experience. While it is not a requirement, a background in technology can be an advantage.

02

Tuition Fees and Funding

WHAT IS THE COST OF THE BOOTCAMP?
The full program price is 6,000 EUR. However, the special launch price for the September.

Cybint

DO YOU OFFER ANY FUNDING/ SCHOLARSHIPS?
No, but we offer a special launch price for the first Bootcamp. Do not miss this opportunity!

03
The Bootcamp

HOW IS IT POSSIBLE TO LEARN CYBERSECURITY IN ONLY THREE MONTHS?
We developed the Bootcamp under the principle of "everything you need to know but only what you need to know". With our accelerated learning methodology – based on military bootcamps – we focus on teaching you the specific skills you will need to start your cybersecurity career.

WHAT IS THE FORMAT OF THE BOOTCAMP?
Our Bootcamp takes place as a blended learning experience, which combines facilitator led and self-paced learning. This means each day is a combination of group sessions and individual learning time.

Full Time, 3 months:
The Bootcamp takes place daily, throughout the 5 working days each week, 9 hours a day including breaks. Each day contains 4 hours with the Bootcamp Facilitator and 4 hours individual online work.

Part Time, 6 months:
The Bootcamp sessions take place twice a week, for 4 hours each day. Between these sessions, the facilitator will establish clear goals for the group, which students will complete using Cybint's platform.

Part Time Bootcamp Dates:
#1 September 6 – March 4 with a Christmas break Dec 19-26: Class begins at 5:30 pm Tuesdays and Fridays.
#2 March 14 – August 26: Class begins 5:30 pm Tuesdays and Fridays

IS THE BOOTCAMP SELF-PACED?
At the beginning of each day, you will receive daily learning objectives from your facilitator. During the day, you will learn at your own pace on the Cybint Platform. At the end of the day, you will regroup with your cohort and facilitator for another session to consolidate the day's learning.

WHO ARE THE INSTRUCTORS?
The instructor is our platform, which was developed by Cybint's cybersecurity experts. Through the platform, you will access content as well as practice labs and scenarios. In addition, every cohort will be assigned a facilitator, who will be supporting your learning experience and ensuring no one is left behind.

HOW WILL I LEARN PRACTICAL CYBERSECURITY SKILLS?
In order for you to practice the skills you learn, we have developed over 60 unique hands-on labs that run in virtual machines. These are safe environments where you will be able to run different operating systems, access various tools without installing them on your computer, and practice confidently without putting your computer at risk.

IS THE CYBINT PLATFORM WEB-BASED OR DO I NEED TO DOWNLOAD SOFTWARE TO A PC?
Everything is browser-based so there is no need to install any app or software. We recommend using Chrome internet browser for best experience.

WHAT ARE THE MINIMAL COMPUTER REQUIREMENTS AND WHAT IS THE RECOMMENDED SETUP?
In order to participate effectively in the Bootcamp, you will need a laptop able to run video conferencing. This includes an up-to-date operating system, a stable high-speed internet connection, and a working camera and microphone. For a more detailed list please refer to the Zoom System Requirements. In addition, a second screen is recommended for optimal experience.

04
After the Bootcamp

WHAT CERTIFICATION WILL I GET FROM THIS PROGRAM?
Upon successful completion of the Bootcamp, you will receive a Certificate of Completion issued by Cybint and LCC International University aligned with the NICE-NIST Framework.

WHAT IS THE AVERAGE SALARY OF AN ENTRY-LEVEL CYBER SECURITY ANALYST?
This of course varies in different countries. An entry-level person working in IT Security in Lithuania typically earns around 1,200 EUR per month.

WHAT TYPE OF JOBS WILL I BE ABLE TO APPLY FOR AFTER THE BOOTCAMP?
Our curriculum is aligned with the NICE- NIST Framework and we will prepare you to apply for jobs like Cyber Security Analyst, Cyber Forensics Analyst and Cyber Incident Responder.
