

# CREATING RESILIENT COMMUNITIES FOR PEACE AND JUSTICE

presents:

# RAFFI FEGHALI PLAYING STORIES & THE SHOWCASE

**FEB 26-27  
19:30-21:00**

## "Telling Stories"

Hosted by our artist in residence, Raffi Feghali, the 'Conference Storytelling Evening' features participants in the conference, telling personal stories that resonate strongly with experiences of creating resilient communities. The evening includes breaks to digest and reflect on the stories, informally and while sipping on your favorite beverages. There will also be some opportunities to share your own stories, if you feel inspired to.

## "The Showcase"

An evening of theatre immersion showcasing socio-political realities and interactive theatre as a peacebuilding tool. The audience will be invited into the experience while witnessing workshop participants and peacebuilding artist in residence, Raffi Feghali, highlight the ways in which socio-political realities come to life and engage with difficult questions. They explore how business connects with communities and the ways language plays a unifying role. Come to an evening of engaging theatre and witness the public life realities that are often experienced in our common spaces.

\* Tickets 5 Euros per night;  
Free for Conference Registered Participants
